

House for rent in Roberts Creek Co-housing ...

This is a great chance to spend some time in co-housing, to see if you might like it, and to live in fantastic place with easy access to ocean, creeks, forest, and mountains.

The specifics:

When: rent for one year (could even be 13 months) beginning in and around July 10th/2018 (we can flex this a little either way as might be needed)

How much: \$1900 + utilities/month (this also has some flex in it for renters who are interested in caring for the garden ... raspberries/blueberries/currants will all be yours!)

What: 3 bedroom (with a den) house, 1.5 baths, right in the middle of co-housing. Has grassy back yard, natural gas stove, and all kinds of other accoutrements. The co-housing community also has a large common house with industrial kitchen, meeting space, kids play room, guest suite (which each household can reserve for up to 12 nights/year ... great place for noisy guests (or private/quiet ones)), tv lounge, computer room. There is also a huge community garden, 30 egg-laying chickens, a work-shop, and a games/workout/pottery studio. All of this renters have access to along with being invited to engage in community governance (without voting rights), games nights, shared meals, musical extravaganzas, etc. as desired.

Specifics: would like to rent the place furnished (will remove personal items/art/etc. ... can discuss further as needed), have a shed with some sporting equipment that could be available as well.

Key exclusion: No pets and no smoking.

For those with a serious interest we are happy to give you a tour of the house/property. Once you have committed, we can introduce you to the community, and even have you over for dinner in the common house where you can meet people with whom you will be living.

If interested please contact Sean or Jane at sblenkin@sfu.ca or call 604 740-0789
